

## Returning to School

**I will be returning to school on Tuesday along with my classmates and teachers.**

**When I come to school, I need to say goodbye to my parents outside the school gate.**

**It will be safer for my parents to stay outside and say goodbye. I will see them at the end of the day when school is finished.**

**I will be brave and walk inside the school gate by myself and a teacher from my school will be there to greet me.**

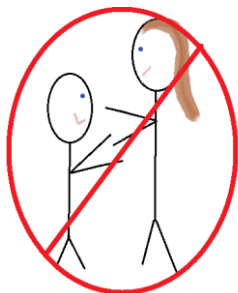

**When I go into my classroom, I will see my teacher.**

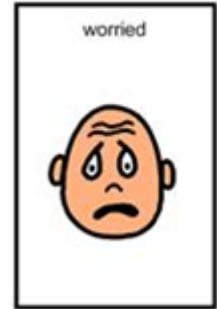

**I will be learning in the same room, however it will be a little different.**

**At school we will not be hugging or shaking hands with our friends as usual, we will be practising proper hygiene rules and playing in different outside areas and that's OK!!!**

**If I feel worried about returning to school, I can speak to an adult about my feelings so they can help me feel safe.**

**At the end of the day my teacher will take me to meet my parents.**

**I am looking forward to seeing my teacher and friends again!**
